This dance was gracefully executed and the costumes of pastel shades of soft silks, that fluttered in true butterfly effect as they danced, and tulle butterfly shaped bows in their hair added to the beauty of the scene. POTOMAC MOUTH POLLUTED.

Vegetable Matter Produces Gas Which Kills Fish.

An investigation just completed by the Bureau of Fisheries has resulted in the discovery that the mouths of several large rivers, including the Potomac, are polluted, which causes a heavy mortality among fish. Decaying vegetable matter carried down by the Potomac, the investigation shows, settles on the bottom and produces a gas which kills the fish.

EXONERATES MOTHER

Incorrigible Boy Now in City Jail Sends Letter Assuming Responsibility for His Acts.

Last summer Roy Draper, a youth of this city, gave the authorities some trouble by his acts of petit larceny, and he was ordered to be turned over to the State Board of Charities and Correction, which organization was to furnish him with a home outside of Alexandria, or place him in the reform school. He was eventually located in a home, but remained there but a short time, and last Sunday he was arrested on the charge of taking brass from the depot of the Southern Railway Company, in this city and endeavoring to dispose of it to a junk dealer.

When the case came up in the Police Court on Monday morning the father of the youth appeared and requested the authorities to deal with his son, as he had done everything possible to induce him to behave himself. The father, however, intimated that others were interested in the brass, and that the police should apprehend them also.

Young Draper was ordered to be held for the Board of Charities and Correction, and this organization has determined to place him in a training school near Richmond. The youth is now in the city jail awaiting the appearance of a guard, who will conduct him to the school, where he will remain until he reaches manhood. Young Draper sends the following to the Gazette with the request that it be published. We print it in his own words:

"To the Readers of the Gazette and the People of Alexandria at Large:

"I wish to state that my mother had nothing to do with the reason that I am in here. She had always been a good and faithful mother to me, and she gave me the best a mother could give. She taught me my prayers from the first time my baby lips could lisp, and she learned me to love my God,But,kind friends, I was tempted to wrong doing and I fell, for which I am very sorry. But now that it is too late, I must pay my bill, like a little man, and I hope it will be the best lesson to all the boys in Alexandria when they are tempted to do wrong.

"Why just to think of me, and listen to the kind words their mothers tell them, as mine told me. Any person saying that my mother is the blame for my being here is only telling a lie. So I hope, dear readers, you place the blame on the one what is to blame, that is me, not my mother. I am respectfully yours,

ROY DRAPER,
City Prison, Alexandria, Va.

DRASTIC PROHIBITION LAW.

Liquor Regulations Posted in Electric Railway Cars.

The prohibition laws of the State are drastic in their effects to prevent drinking in public and to prevent any one from obtaining liquor from "blind tigers" or bootleggers. The cars of the Washington-Virginia line running from Washington to points in Virginia have recently had a placard placed in them ,reading as follows:

"Extract from the Prohibitioin Laws of Virginia: Any person who shall drink intoxicating liquors in any railroad station or any passenger train or any street car or other public conveyance or any person employed in connection with any train or car who shall procure for or assist in procuring or who shall give any information by which any person may secure intoxicating liquor shall be guilty of a misdemeanor, and, upon conviction, shall be fined not less than ten dollars or more than five hundred dollars." Now, when the railroad men are asked to give information as to where liquor can be obtained, they point to the big placard with the remark, "You read that."

Frank Deputy of Baltimore, is recovering from injuries received Monday night when he was attacked and robbed of his watch and about $250 on the road near Nokesville, Prince William county. Young Deputy was returning to the home of his brother near Nokesville after calling upon Miss Bessie Baker, who was to have become his bride Wednesday.

NO IDLE MEN IN CHICAGO.

Municipal Lodging-House Empty, Although Wintry Weather Prevails.

Chicago, Nov. 18.—The municipal lodging-house is empty, although wintry weather has prevailed for nearly a week.

Itinerants have failed to appear this year, it is said, on account of the great demand for labor throughout the country.

Owners of cheap lodging-houses are complaining that while ordinarily at this season their places are filled to capacity, and they have to turn men away, at present, despite the cold snap, less than half of their beds are being occupied.

LABOR ORGANIZER INDICTED

Man Active in Atlanta Street Car Strike Charged With Inciting Insurrection and Riot

Atlanta, Ga., Nov. 18—W. M. Pollard, an organizer of the Amalgamated Association of Street and Electrical Railway Employees of America, who has been active in the local carmen's strike, was indicted here yesterday, charged with "inciting insurrection, riot and conspiracy" and "libeling" employees of the Georgia Railway and Power Company, who took the places of the strikers.

The first indictment is for a felony and the maximum penalty under Georgia law is twenty years in the penitentiary.

The second indictment, for libel, is for a misdemeanor.

Samuel Gable, a former trolley company employee, was fined $1,000 or twelve months in jail to-day in Criminal Court for participation in recent rioting at East Point, a suburb.

The strike on the Atlanta street car lines began September 30.

Officers Want Aviation Station Placed on Hampton Roads if Suitable Terms Can be Arranged.

Washington, Nov. 18.—Although a board of officers of the Coast Guard service has reported in favor of establishing the first coast guard aviation station somewhere in Hampton Roads, prices on available sites have appeared so prohibitive that it may be decided to place the station elsewhere.

The station is planned as the nucleus of an extensive coast guard aerial service, and while officials would prefer to have it on Hampton Roads, it was said today the station might be forced into another locality by prohibitive land prices.

Judge Richard H. Cardwell retired from the position of chief justice of the supreme court of appeals yesterday at 10:15, and at the same time Judge Robert R. Prentis, former chairman of the state corporation commission, became a member of that tribunal. Following this there was the election of Judge George M. Harrison to the position vacated by Judge Cardwell, and the work of the court proceeded without the least hitch or interruption in the due course of the admipistration of justice Christopher B. Garnett was yesterday elected chairman of the state corporation commission, succeeding Judge R. R. Prentis, now on the supreme court bench. Judge Garnett thus succeeds literally to the position of Judge Prentis, being his successor as a member of the commission and also as chairman.

INTERESTING ADDRESS

Large Audience Greets W. E. Edgin, At Young People's Building Last Night.

There was a large gathering of Alexandrians at the Young People's Building of the M. E. Church South last night to hear, W. E. Edgin, of Washington Assistant Superintendent of the Occoquan Reformatory, who delivered an interesting and suggesttive address from the theme, "Why Do Young Men Go Wrong?"

While listening with close attention to the speaker's words many of the audience doubtless had the case of Jean Valjean or the hero in the old play, "The Ticket-of-Leave Man," brought to their minds, as the speaker proved conclusively that there is something good in the most abandoned criminals if we take the proper methods for ferreting it out. Mr. Edgin denounced the brutal methods so often followed in prisons and reformatories ,where it is assumed by those in charge that a prisoner has no rights or feelings any one is bound to respect, but who look upon those committed to their care as wild and vicious animals who must be regarded as enemies of their genus.

The speaker gave many instances where men, supposed to be beyond redemption, had entered into a new life, so to speak, after having been treated with proper consideration. There is an old saying, "A man's a man," although unfortunately he may at times be clothed in prison stripes, Treat him well, accord to him, his dues, and there is every reason to believe good results will follow.

We cannot repeat all Mr. Edgin said, nor can we reproduce his many anecdotes and personal observations.

Among other things he said that when he first went to Occoquan he noticed that the prisoners were fed in a body with no improvement upon the procedures around the fleshpots of Egypt in the days of the Pharaohs. The conditions were suggestive of those at a hog pen when slop is poured through into a trough. Everything pertaining to dining was suggestive of slop and unsanitary manners, as all were served from one kettle, and one of his first acts was to bring about a new departure. Instead of feeding all the prisoners from the same vessel, he ranged them in companies of ten and provided a bucket of soup for each table, appointing a man to superintend this little company and serve each member. Hence the procedures were as orderly and cleanly as one could have expected at his own private table. The effect was soon manifest among the prisoners, as they realized there was somebody in the institution who took an interest in them.

The meeting was presided over by Henry K. Field, and James R. Caton introduced the speaker.

The subject will be given under the following head; Lecture I, Church Unity; It's Necessity; Lecture II, Church Unity, It's Growth; Lecture III, Church Unity, It's Outlook.

From the reputation Dr. Ainslie has attained, this course of Lectures will be of great interest, and it is hoped, a number of the clergy and citizens of the city will be able to attend them.

An alarm of fire shortly before 3 o'clock this afternoon was sent from Del Ray, and the Alexandria department responded.

BAPTISTS PROSPERING

Statistics Presented at Meeting in Norfolk This Week Are Very Encouraging.

The meeting this week in Norfolk of the Virginia Baptist General Association has been one of the most interesting in the history of the Baptist Church in the Old Dominion. The reports presented this week show that this denomination is in a prosperous condition, and the many members throughout Virginia have much to encourage them in their work.

Dr. J. T. Watts, this week spoke on the Sunday school and colportage work. He reported 138,000 members in Sunday schools of Virginia; 6,000 conversions, 2,022 normal diplomas granted during the 8 years of work, and that 2,649 persons have taken advanced work.

The report of the Foreign Mission Board was made by Dr. R. B. Garrett, of Portsmouth. The total amount given to foreign missions in 1915 was $6,210.55. This from all the Baptists of the United States. The only money given by Virginia was $250. This year Virginia Baptists gave $137,000. to foreign missions. This was $30,000 more than was given by all the Baptists of the south 20 years ago. During the year there have been 6471 converts and 77 new churches on the foreign field. Now have 459 churches and 42,632 members.Ninety-five are self-supporting. Four hundred and sixty-two Sunday schools with 10,490 students. Four hundred and fifty-three mission schools with 13,531 students. Six of these are women's Bible training schools with 206 students. Ten Theological seminaries with 191 students. Nineteen medical missionaries, 9 hospitals and 10 medical dispensaries.

Over shadowing all other notable events which have featured the ninety-third annual meeting of the association was an address by Dr. Robert Stuart McArthur, of New York, president of the Baptist World Alliance, who closed the program of the meeting last night. He spoke on the "Baptists, Their Principles, Their Progress and Their Prospects," and his address was pronounced by Baptists the greatest intellectual, religious and inspirational address ever delivered in this city.

"There is nothing too good for Baptists," he declared, and proved that the great Te Deum Laudamus was a Baptist hymn, chanted antiphonally at the baptism of the great Augustine in the ancient cathedral of Milan, as he was coming up out of the water. And he further declared that the Baptist who does not love his denomination must have ignorance instead of knowledge in his brain and ice water instead of blood in his veins.

"I do not denounce all creeds," said Dr. McAarthur, "for they have their uses, but creeds were made by man in one age and they can be changed by man in any other age." He bewailed the fact that the law of England forces men to adopt a creed which they do not believe, and would give praise that American Baptists have written in the constitution the separation of Church and State. "I am a Baptist because by mother was taught that the Westminster confession was not right. I thank God that Baptists never rest on creeds made by man—they go to God as the ultimate authority.

"The greatest evil in Protestantism today is the custom of infant baptism. All churches that practice this are offshoots of Romanists. The time has come when we ought to teach men and women better regarding this custom," the speaker said, and told a graphic personal story of an experience with Ingersoll told him upon inquiry into his life that this custom of infant baptism and predestination to eternal joy of eternal damnation regardless of conduct and character had driven him to believe that there was no God. And the speaker said that if he believed the same thing himself he would have to hate God.

RECOGNIZING JUDAISM

A Warsaw telegram announces that an edict has been published recognizing Judaism as a religion in public law. The edict also grants the Hebrews self-government.

The Gazette has for several months on Saturdays published articles on this page appropriate for Sunday reading. They have been written either by one of the regular attaches or by occasional contributors to our columns. Upon reading the above announcement it occurred to us that the few lines afforded a text for something we have often wished to say concerning Judaism. We have ever believed that were Judaism and Christianity more clearly understood a better feeling would exist between followers of the two greatest systems of faith.

A conservative Jewish writer terms Christianity "the noble daughter of Judaism," and a well-known rabbi in an address at the Opera House in Alexandria a quarter of a century ago on the "Wandering Jew" compared the two faiths to the rivers Euphrates and Tigris, running parallel but mingling their waters in the Persian Gulf.

Judaism and its "noble daughter Christianity" should long ago have been on better terms—should have better understood each other. There never was a more opportune time than now. Most of the world is rent by war, and the descendants of Abraham, Isaac and Jacob are in the ranks of the hostile armies. French, English and Russian Israelites are fighting their co-religionists in Germany, and Austria, while followers of Mahomet, who also claim to have "Abraham as their father," are engaged in this fratricidal slaughter.

Why should not the Jews of Galicia be recognized as a religious body? Israelites of that section of the world have suffered more during the present war than others who were more fortunately situated at the outbreak of the conflict. The Jews in that part of the world have been plundered and murdered by both armies at times, until now they are in as deplorable a condition as their brethren were in Portugal at the time Columbus was preparing for a voyage to the New World, many members of the race at that time having been taken in custody, placed upon rafts and started adrift in the Atlantic Ocean, simply because they were Jews.

We have no purpose of precipitating a theological argument, but will say that we never have understood how any person can read the Old and New Testaments without seeing there is a glorious future for the Hebrew race. The preservation of a people without a country, king or high priest during the past nineteen centuries is a miracle in itself. Unfortunately the great mass of religious teachers seem to suppose that every statement of the two books refers to personal salvation, and glowing forecasts concerning the future of Israel are spiritualized and the sense obscured by attempts to make plain truths mean anything but what is intended.

One of the minor prophets of the Old Testament assures us that in the latter days "it shall come to pass that ten men shall take hold out of all languages of the nations, even shall take hold of the skirt of him that is a Jew, saying, We will go with you: for we have heard that God is with you."

Many Christians strangely suppose that the entire Old Testament was fulfilled at the appearance of Christ. He did not think so, however, and said "take heed how ye hear."

Dispatches from Changohun, Manchuria, received in Tokyo, say that 200 persons were killed or wounded by the explosion of a munitions train on the Russian railroad at Chuchiasui station, near Tsitsihar, in Northern Manchuria.

DEMOCRACY IN EUROPE

A contemporay suggests that those of us who cherish the belief that this great war will be productive in Europe of a new spirit of democracy must these days be strong of faith and stout of heart. We must continue to believe in spite of the evidence of our own ears and our own eyes, for democracy in Europe, mid the crash of arms and the wails of the suffering and dying, has fallen on parlous times.

Germany is about to carry conscription a step further. Military conscription it has had in full flower since 1870, but now it proposes an industrial conscription as well. Not only will it force men to bear arms for the Fatherland, but it will force them also to work with pick and shovel, at lathe and forge, with pen and ink, at whatever task bureaucracy prescribes, in their country's cause.

Menatime Britain follows the same path. Military conscription it has already adopted, as a war measure, and there are charges that under the guise of military necessity forcibly recruited soldiers are being worked in factories, receiving for themselves the army pay and earning for the government the difference between this pay and the regular wages of civilian employees.

And Britain now has taken another arrow from the Teuton quiver, for a food dictator is to be created and endowed with despotic power. There are to be meat cards and bread cards and meatless days in England, just as there have been in Prussia. Industrial conscription is only another step forward—or backward. The fears of the opponents of compulsory military service, that it would be the stepping-stone to compulsory service in industry, are in a fair way to be realized.

German Kultur, of which that sacrifice is the crux and inspiration, brought Europe to the shambles through which its people now struggle. Individual liberty, the opportunity of the individual man to live his own life, in his own way, is Kultur's antithesis. Allied use of Kultur's method is merely a new and perfect illustration of the wisdom and necessity of fighting the devil with fire. It will not last; it cannot last unless freedom is to perish from the earth.

It is contended that Kenny was kliled by an electric shock.

UNEASY OVER SUBMARINE

Officials At Washington Fearful of New German Campaign.

Washington, Nov. 18.— The reported visit of Baron Burian, the Austro-Hungarian Foreign Minister, to Chancellor von Bethmann-Hollweg at Berlin, for a full discussion of submarine warfare and its effect on the United States aroused interest here, but could not be confirmed from official dispatches.

Government officials do not conceal their disquiet over the present submarine situation, and some of them fear that the Teutonic powers may at any time launch a starvation campaign against England, which could not fail to involve the United States. Secretary Lansing authorized the statement that as yet "there is absolutely no truth in the reports that the department has information that a definite decision has been reached to launch a ruthless German submarine campaign."

Five serious cases now are pending —the sinking of the British steamer Marina without warning and with the loss of six American lives; the sinking of the British liner Arabia, also apparently by a torpedo and without warning; the shelling of the boats of survivors of the British steamer Rowanmore, which had fled, and the sinking of the American steamer Lanao and Columbia for carrying contraband.

Investigation is being made in all cases but has not yet been completed.

WILSON GIVES UP VACATION

Finds It Impossible to Leave Washington Now.

Washington, Nov. 18—President Wilson has decided not to take a vacation before Congress convenes, but may go on one or more week-end trips down the Potomac on the Presidential yacht Mayflower.

He was urged to go to a Virginia resort for a brief stay, but reached the conclusion today that it would be impossible.

The President has almost completed the selection of members of the Tariff Commission and Shipping Board created by Congress last session, and probably will make an announcement of the personnel of both before Congress meets. He has made but little progress, however, in the selection of members of the board to administer the Workingmen's Compensation act for Federal employes.

One typewritten page of the annual message to Congress has been finished by the President and he is devoting all of his spare time to this work.

As soon as Congress meets Mr. Wilson will resume his conferences twice a week with Washington newspaper correspondents.

JEWS TO GOVERN SELVES

Gen. Von Beseler Issues Order For Communities In Poland

Berlin, Nov. 18—Gen. von Beseler, Governor-General of Russian Poland, has issued an order at Warsaw in regard to the organization of a Jewish religious body in Poland, by which self-government is given to the Polish Jews.

"Under Russian rule the Jews in Poland, as in all Russia, lived almost without a religious organization," says the Overseas News Agency in describing the new order. "The hostility of the Russian authorities against the Jews found expression in well-known laws and in uninterrupted persecutions and oppression of the Jewish community, as well as in the fact that a religious body, to which 14 per cent. of the population of Poland belongs, was deprived of all uniform organizations. Only the formation of organizations of isolated parishes was allowed and the union of parishes into a larger organization was forbidden.

"By the present order of the Governor-General the members of the Jewish church are reorganized as a religious body according to public right. Local Jewish communities in the counties, according to the new order, are united to county organizations. The heads of these county organizations are administrative councils, which are made up from the boards of the smaller communities and selected according to the principles of proportional representation.

"The formation of associations for divine service will be allowed in every community. Thus a guarantee is given that no religious tendency can be suppressed by the majority. To the community will be intrusted the religious life and education of the young, charity and social work. The local communities, the county communities and the general religious body as represented by the supreme council will have the right to levy taxes and will possess the privileges of incorporated public corporations.

"The Jews in Poland by this order receive a constitution superior to the majority of the antiquated constitutions of other European countries.

"Jewish circles in Poland received the new order enthusiastically. All parties among the Jews consider it very important that the Jewish community now is recognized as a religious body according to public right and that the possibility now exists to work in the different departments of Jewish life through the means of well-conducted self-governing bodies. The war has brought unspeakable misery to the Eastern Jews, but on the other hand it has brought this new constitution, which is of the highest importance, to their future."

SHAD FOUND IN RIVER.

Shad in Potomac According to Fishermen Means Warm Weather.

Shad are said to be still swimming in the Potomac River. Fishermen say that when shad are in this latitude at this time of the year it is a sure sign that the winter will be moderate. It is alleged that during the past week many shad got into nets along the Potomac.

In November shad should be running off the coast of Florida. They cannot stand the cold and migrate south and north with the receding and advancing warm weather.

Ordinarily, not a shad can be found in the Potomac after August. They have left for the south and do not come north until the spawning season, which happens in April.

Shad have also been caught in the Hudson River, where fishermen also believe in "signs" and predict the mildest winter for years.

A Stockholm newspaper says the Russian ammunition steamer, the Baron Breseni, was blown up in the harbor of Archangel recently causing the death of 150 persons and wounding 650.

DEPORTATION OF BELGIANS.

Some 300,000 Ordered to Report for Inspection.

The Hague, Nov. 18.—The number of Belgians deported by the Germans up to date apparently is between 30,000 and 40,000, and they are being deported at the rate of about 2,000 daily.

Reports say that the Germans plan to take some 300,000 judged from the order issued in a number of cities for all males over 17 to report for inspection.

Antwerp, it was said, has been commanded to furnish 27,000 men, which probably is not more than 10 per cent of its able-bodied population, but the commune of Lessines has lost more than 2,000 from a total population, including women and children, of 7,000, representing virtually every able-bodied man, except officials.

The entire Belgian population, the narrator said, is terrorized because the people realize they are entirely helpless. Crowds of hysterical women and children gather at the railway and recruiting stations, and many women at Jemappes threw themselves on the rails to prevent the departure of a train of emigrants, and had to be removed forcibly by German soldiers. The men are frequently loaded into cattle cars and spend one or two days on the journey. They are strongly determined to refuse to work, believing that if they are not employed in military works they will be compelled to replace Germans and be forced to work directly or indirectly against the Belgian army and its allies. The deported men in trains passing through Liege are declared to have been heard singing the "Marseillaise" and other patriotic airs.

The newspapers report a case near Vallencienes of 60 Frenchmen who, impressed by the Germans, refused to work, and are declared to have been tied to posts for 48 hours until half of them fainted from hardships and hunger.

FUNSTON MAY SUE BAPTISTS.

Says Virginians Are Distorting Statement On Church Work.

San Antonio, Texas, Nov. 18. — General Funston, commenting today on the action of the Baptist General Association of Virginia at Norfolk, Va., Thursday in adopting a resolution of protest against the General's alleged attitude, intimated he might bring libel suits against his critics.

The controversy started from General Funston's telling Dr. J. B. Gambrell, representing the Texas Baptist State Board, that he did not want men in the army to be considered as "lost souls."

"Baptists who are distorting the statement of my position regarding the kind of church work acceptable in border camps had better put their property in the names of their wives," General Funston said today.

WILL FIGHT TO A FINISH.

Great Britain Preparing to Continue Conflict for Several Years.

New York, Nov. 18.—Frederick Palmer, the war correspondent designated by the British war office to represent the entire press of the United States, returned yesterday on the Holland-American Line steamship Nieuw Amsterdam for a rest before going back to the front.

It is Mr. Palmer's opinion that the allied offensive against the Germans in the battle of the Somme will end only when the war itself ends, that it will be continued for two, perhaps three years. He was told by the staff of the allies that they had no expectation of breaking the German line this year.

"In the Somme sector 6,000 British French and German guns have been in action on the same day. Within one period of 24 hours there have been at least 150,000 casualties, counting those of both sides. So far in this engagement at least 1,500,000 men have been hit. Next summer the British are prepared to lose 1,000,000 men if necessary; they will have twice their present gun power.

"When will the war be over? I only know that next year will be bloodier than this. The week before I left France I talked with Gen. Joffre and Sir Douglas Haig, and with such army and corps leaders as Sir Henry Rawlinson, on the Somme, and Gens. Neville and Mangin, who planned and executed the brilliant attacks which recovered Forts Douamont and Vaux at Verdun. Their idea was the same that I have found everywhere — a fight to a finish.

"In the midst of the close and complicated fighting of the Somme battle the British have taken 36,000 prisoners and the Germans about 2,000. The British simply refuse to surrender when any group of them get too far forward and their supports on the right and left are repulsed. They dig in and fight to the last man."

BOYS FACE MURDER CHARGE.

Two Accused of Killing Brakeman Sent to St. Mary's

Baltimore, Nov. 18.—With charges of burglary and murder against their names Felix Kowalewski, 10-years-old 2540 Fait avenue, and August Meyers, 12 years old, 407 south 13th street, were committed to St. Mary's Industrial School yesterday. They are accused of firing the shot that killed William W. Baker, 28 years old, a brakeman on the Pennsylvania railroad, Thursday afternoon.

Baker was standing on top of a freight car when his train passed a house in which the boys were secreted. He was shot in the head, dying half an hour later. The boys admitted stealing two rifles and 3,000 cartridges from a shooting gallery kept by Charles Quastner and robbing small stores. Both boys were former inmates at St. Mary's School.

Seven ammunition steamers recently were blown up in the harbor of Archangel.

NEWS OF THE DAY

Coal at $15 per ton by Christmas may be the lot of the consumer, following recent advances of soft coal in New York to $11 per ton. Washington dealers, especially those who contract to supply coal to the government departments, could not say just when an advance would occur, but predicted one shortly if the car shortage situation is not relieved.

The visit of Baron Burian, the Austro-Hungarian foreign minister to Berlin, is stated to have been in connection with a conference with Dr. von Bethmann-Hollweg, the German imperial chancellor regarding the relations of the two empires with the United States. During the last few days it is said the German government has received a plain verbal warning that President Wilson's patience was on the verge of exhaustion.

Companies carrying the insurance on the tugboat T. A. Scott, Jr., sunk by the Deutschland with a loss of five lives early yesterday morning, probably will libel the German merchant submarine Deutschland at once, The action, which amounts in effect to a writ of attachment, will be taken as a matter of protection to the insurance holders and to the families of the men drowned on the Scott. Following the libel proceedings the owners of the Deutschland will have to put up heavy bond before the blockade runner can again leave port.

TWICE-TOLD TESTIMONY.

Alexandria People Are Doing All They Can for Fellow Sufferers.

Alexandria testimony has been published to prove the merit of Doan's Kidney Pills to others in Alexandria who suffer from bad backs and kidney ills. Lest any sufferer doubt this evidence of merit, we produce confirmed proof —statements from Alexandria people who again endorse Doan's Kidney Pills—confirm their former testimony. Here's an Alexandria case:

H. C. Smith, tailor 919 1-2 King street, Alexandria, says: "I can't begin to describe the agony I suffered with my back. It was impossible for me to find a cure until I began using Doan's Kidney Pills. They cured me in less than a month and today, I am as free from backache as if I had never had it." (Statement given November 3, 1910)

On April 10, 1915, Mr. Smith said: "I still consider Doan's Kidney Pills a very fine medicine for kidney trouble and never hesitate to recommend them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Smith has twice pugvicld recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Harrisonburg and Rockingham Democrats held a jollification last night in celebration of the re-election of President Wilson. Scores of gayly decorated automobiles, horses and vehicles, together with a number on foot made up a parade that traversed the principal streets of the city. Nearly every Democrat followed Vance McCormick's advice and brought red fire. Many wore red sashes. Many boys and girls appeared in line. A display of fireworks in front of the courthouse and speeches by local Democrats closed the jollification.

THE NEW TEMPERANCE DRINK

PABLO

"You Can't Tell the Difference"

That is what they all say regarding Pablo, the new non-alcoholic beverage we are now offering to the trade.

Pablo is an unfermented beverage does not contain malt and is absolutely non-alcoholic. It is not a near-beer and should not be confused with the many so-called temperance drinks now being marketed that are really nothing more than fermented malt beverages, with a percentage of the alcohol extracted, the sale of which is liable to be accompanied by risk of prosecution.

Wherever Pablo has been introduced it has met with almost instant favor and popularity, proving to be a good repeater. As compared with other soft drinks, Pablo is in a class by itself—a drink with character and snap to it. It is of a sparkling amber color and has that pleasing hop tang that is a never-failing, nevertiring delight to the taste and which at the same time makes it a refreshing healthful and invigorating beverage.

Speedy and Easy Riding

There's little comfort in most low priced cars. You can't use their speeds. They jostle you—they ride roughly—they don't hold the road.

The $635 Overland is different. It is not only the speediest of low priced cars—

But you can use the full speed of its powerful motor when you need it.

It has long 42-inch, easy riding, shock absorbing cantilever rear springs. In addition the 75 B Overland is a longer car—104-inch wheelbase. And it has 4-inch tires.

Its smoothness and ease of riding at any speed would do justice to a much larger and heavier car.

Come in and let us demonstrate. That's the best kind of proof.
